### BEEF ON DAIRY CATTLE

We have a strong buyer demand for  
beef on dairy animals from baby calves  
to feeders to finished cattle.

**We strongly recommend  
vaccinating & weaning**

### RECOMMENDED VAC PROGRAM

- Four-way Virus Vaccine for IBR-P13-BVD-BRSV
- 7-way Clostridial
- Pasteurella
- 1 to 2 doses of Coronavirus vaccine prior to weaning
- External and internal parasite control
- Administer all shots in the neck
- Booster shots at least 14 days prior to sale
- Knife cut while still on cows
- Ferraprase at weaning to lower stress
- Consider a 10 to 1 buyer ratio on calves with 2 rounds of shots that are weaned at least 60 days versus calves that are not.
- Consult your vet for vaccine questions and recommendations specific to your herd needs

**Amanda Radke** is a fifth generation rancher from Mitchell, SD. Alongside her husband, Tyler, and their four children, they operate Radke Land & Cattle, an Angus seedstock operation.

A former National FFA Extemporaneous Speaking Champion and National Beef Ambassador, Radke has spent the last 15 years on the road fighting for the agriculture, rural America, and the western way of life. She's gone head-to-head against animal rights activists, environmental extremists, politicians, and celebrities who seek to eliminate animal agriculture.

Radke is also the author of nine children's books, and her goal is to help promote agricultural literacy in schools and to teach the next generation about where their food comes from.

## 11 HEIFERS WILL BE AWARDED AT THE SUPREME ROW SELECTION SHOW ON SATURDAY, OCTOBER 19.

*In its 20th year, MYBEP continues to aid youth in getting a start in the beef cattle business by awarding heifer calves to program participants based on merit, need, future goals and ability to care for the animal. The goal of MYBEP is to create long-lasting relationships and experiences that help propel recipients towards their future goals in the cattle industry.*

This heifer has a lot of upside that makes us excited. Her length of body, attractive front third, and structural soundness are what sets her apart. Being a late March heifer, her best days are ahead of her. This heifer will be perfect for a junior wanting a nice heifer to take home and start their herd. Maternal power runs deep in this pedigree. Show broke. Maternal sister by blood to CLCC Blackberry 402M, Lot 5.

Dam of 9014 has produced a heifer sold for \$22,000 to a breeder in California. Two maternal sisters are retained in the herd. Brothers were in top 10% of Midland Bull Test in 2023 for Midland test index. Then sold in the sale from \$3500-8000. A full brother is going to Midland Bull Test this fall. This is a deep capacity heifer that is suitable for the youngest exhibitor with her great disposition. Genomic tested.

We are sure proud of the way this heifer turned out and may even get the best we've raised title. I wish I had this one when I was a junior! 402M is so powerful, bold ribbed, wide topped yet very attractive. I admire her easy fleshing ability, body cavity, and her feet and legs

that she tracks out on and I think she will be a lot of fun for whoever gets to show her. She is show broke and has a great hair coat. **Retain the right to 2 successful future flushes.**

We've been a big fan of this one ever since she hit the ground. Not only is she overwhelming in her body shape, but she's stout and square from behind and still offers a great look from the side. Still more intriguing is the fact that her flexibility and reach off of both ends is absolutely awesome. The Emma cow family has stood the test of time and it's easy to see why here. This is the kind that makes a competitive show heifer and a very unique cow prospect.

This January Sandman heifer checks all the boxes. She is powerfully made with exceptional depth, muscle shape and bone. Her neck is long, neat and comes high out the top side of her shoulder. Her dam was 4th Overall at Jr. Nationals in 2018 and has proven to be an incredible donor producing the Supreme Champion at the Wyoming State Fair in 2022 and 2023. 4023 has a bright future as a show heifer and donor.

If you're looking for one that'll make it as a heavy bred in the ring next state fair season, look no further than this Good Times daughter. This female excels in her build and elegance of look, as she has continued to develop, she's never given up an ounce of freshness. When her time in the ring is done, she'll make an impressive front pasture female.

Mia is the sweetest heifer, being worked with and shown by our 7-year-old nephew. Her disposition is just icing on the cake; she is something to breed off, enough red in her pedigree to get you color, stout enough to make herd bulls or steers, and yet maternally made to make them front pasture purebred or percentage replacement heifers.

Yes, you read the bottom of the pedigree correctly. Our new donor 224K, is a full sister to the great 8543U. This natural first calf is sired by one of Werning's new production specialists "Triple Threat". With the length of body, muscle dimension and extension through the front end that

224M possesses, we feel she will be able to make both high end show cattle and production cattle alike. Heres your chance to own a piece of the best cow family the Simmental breed has ever seen!

Impulse

Fefe, a half-blood Simmental loaded with everything you want: presence, substance, and a pedigree featuring some of the most popular bulls in the industry. This heifer brings the power and design to compete at any level and offers immense potential for her new owner.

Her maternal sister was successfully campaigned by the Hackett Family, selling for \$7,500 at the 2022 Jewels of the Northland. The possibilities with Fefe are endless, and I can't help but get excited about the heifers she could produce. She's extreme in her presence, with skeletal quality, density, hair, and punch. Bid early and often before I change my mind and decide she needs to come back home with us!

Don't miss this exclusive opportunity to purchase EMBRYOS from CHOICE on one of the three Supreme Champions from the MN State Fair. We take great pride in these females and the potential they hold not just for our operation but for yours as well. This is an exceptional chance

for those interested in Limousin, Simmental, Maine Anjou, or Chianina cattle. The opportunity is open to acquire some of the first offspring from these females. This is a rare and unique chance to have access to genetics on these females, and it's crucial to note that this chance will not come around again. Discussion about the mating of all females will take place with the buyer in the spring, allowing them to make their selection at that time.

If there was a "one size fits all" heifer, this is her. Whether your focus is registered breeding stock or a commercial breeder, JKR Jamaica will fit your program. Here is a heifer that has plenty of power, length, depth, and balance, with a beautiful front shoulder and an exceptional extension of the neck. If you're looking for these attributes in a heifer, just wait until you see her on the move! A "sure bet" for success in the show ring is not out of the question, as this heifer has already been named champion spring calf, reserve breed champion, and breed champion as a cow/calf pair, not to mention the success we've had with her dam! Take it one more step farther, and study her EPD's and pedigree, and you'll see she is backed by top breeding programs in the nation, with an unlimited number of options for breeding. Lastly, there isn't a cattleman out there that wouldn't fall in love with her disposition. Don't let this one get away from you, as she will be a guaranteed asset to any program!

**Told Ya So x Macey**

We usually don't use rookie bulls, but after seeing Told Ya Do in person in Denver, we thought we had a cow that he could work on. Everyone wants a bull calf on a mating like this, but needless to say we like this heifer a lot that we didn't hesitate to breed the cow back the same way. This heifer has the presence and big hair to run with some of the best in the maintainer breed and be competitive all year. I'll be the first to say she is still a little green, but she has big bone and big feet, along with enough front third extension in the breed where this heifer is going to have plenty of growth to her by the end of summer. She has gotten better every week since weaning, and was sheared off late, but as you can see that didn't matter with the amount of hair she already has grown back. Show this one all year and be competitive, then take her back home and turn her into a great producing cow just like her dam to produce show steers, or put her back on a purebred maine to make some maine heifers right out the gate as a bred heifer.

This one is docile enough for a first-time showman. Not only that, but she has the power, the body, the look, and the flash of a show heifer! She even has the genetics that will add to your herd, whether you take her for more shorthorn cattle or breed for steers. She is versatile, sound, big-muscled,

and has the genetics to do your herd well. Her cow family, Augusta Pride, has been producing top cattle on our ranch for years. Her mother was the champion shorthorn at the NDSF in the open class, 4-H show, Jr points show, and shorthorn association shows. Not to mention, she was only a June born! A half-sister to her dam, an aunt to this heifer being consigned here, won the NDSF shorthorn association show, open class, 4-H show, and Jr points show year-round in 2021. In 2018, a purebred shorthorn out of the same original Augusta pride as her dam was undefeated in ND. They are awesome cows, maternal, easy-keeping, and feeding, while simultaneously being phenomenal in the show ring and producing you your next show stock. Whether you keep them purebred or head crossbred for steers, the possibilities are endless.

Here is an elite purebred Shorthorn show steer that can compete at the highest level, and we look forward to the State Fair season next year, as this one just may be getting his picture taken. He has the look, hair, and muscle that the great ones have to have, but it's the body and middle that really separates him from the crowd. This beautiful roan is going to be a fun one to have in the barn. Quiet natured, look for this guy to be one of the real success stories next year!

Curly has been a standout in our pasture since day one. Out of a gorgeous 2nd calf Manchild cow, this red plus steer has all the pieces to compete at any jackpot show or county fair in the midwest. Take a closer look at him; big hiped, big backed, while also being able to put it all together in motion. He's only been off the cow for a little over 2 weeks and wow has he gotten better every day I look at him. Star him in the catalogue now, but make sure to stop by our string before the sale to take another look at him because he will only get better with time. Also check out our Schank Riverview Shorthorns Facebook page for updated photos between now and Expo.

Looking for a breed steer with the quality to win jackpots all year. Donkey Kong has already seen the tan bark receiving champion prospect calf at county fair. This one has the extras that are rare in the show ring with a long, extended front end that's sometimes hard to find, coupled with square wide hip all in a sound package. Then combine that with an awesome blue hair coat, disposition 2nd to none and you have yourself a serious Shorthorn Plus weapon of a steer!

It's hard not to love this guy in terms of his genuine width and stoutness. He is still attractive through his front third and transitions into his shoulder and forerib as good as any while being so stout. He's got good running gear on him to go the long haul. Show him haired up or slick him out, he's got great potential for either. Tame enough for a first year showman but still competitive enough for a senior. Has already been successfully shown all summer. Grand prospect at 3 smaller shows, 5th overall prospect at MYLE, and 2nd in a competitive class at state fair right behind the reserve prospect steer. Can be registered as a Foundation Simmental and/or low% chi if buyer chooses. Video available upon request.

## AUTHENTIC HAIR GROWTH

### BIOTIN

#### A TREMENDOUS VITAMIN FOR HAIR GROWTH.

Biotin has the ability to strengthen both the hair follicle and hair shaft, along with increased elasticity of the cortex to prevent hair breakage and dryness. This enables healthy, **FASTER HAIR GROWTH**. Biotin thickens the actual hair cuticle providing a fuller appearance.

### PRO-VITAMIN B-5

#### THE KING OF ALL HAIR CARE VITAMINS.

It stimulates healthy scalp circulation which leads to improved hair health. As an added benefit, it also possesses superior long term moisturizing properties because of its unique ability to penetrate and nourish the hair shaft; then sealing the surface to protect and make the hair shine.

### VITAMIN E

#### STIMULATES CIRCULATION THROUGHOUT THE SKIN AND SUPPORTS CAPILLARY GROWTH.

When there are more capillaries, the circulation improves leading to increased nutrient absorption into the hair follicles, this speeds hair growth.
